Join us in the outdoor survival camp of Slovakia. There you will find everything from a beautiful nature, amazing hike sceneries, historical monuments, rich folk culture but also modern life in the busy city streets. Slovakia offers a unique atmosphere you don't want to miss. Come and explore deep valleys guarded by majestic peaks of soaring mountains with crystal clear mountain streams and unbridled nature.

A camp with 2 locations: a cottage in the mountains (try to survive) and a hotel near Bratislava (discover the city life).

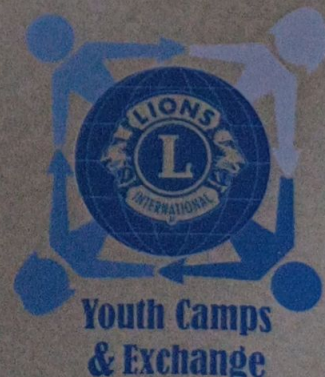

Activities: hiking, rafting, outdoor adventures, sports... You have to be able and willing to HIKE in the mountains.
